## GREENGUARD® GOLD CERTIFICATION

Hush Acoustics has achieved full GreenGuard® Gold sustainability certification, a mark of excellence that ensures our products meet strict standards for low chemical emissions, promoting healthier indoor air quality.

This recognition gives architects, designers, and consumers confidence in choosing Hush for environmentally responsible solutions. Beyond sustainability, Hush's felt products offer excellent sound-absorbing properties, making them ideal for creating quieter, more comfortable spaces.

## SUSTAINABILITY

Manufactured from 100% PET(60% recycled material), our felt products demonstrate our commitment to both environmental stewardship and functional design, contributing to a greener and quieter future. It comprising of flame-retardant fiber as new material ensuring ASTM E84 class A certification. The high strength of PET panels in comparison to its weight is the key to its superior energy efficiency.

## FUNGAL RESISTANT

Independently tested by EMSL Canada, Hush P.E.T. felt showed zero mold growth under ASTM C1338 laboratory conditions, confirming exceptional durability.

## WARRANTY

2 year limited warranty. See F.A.Q. page on our website for more information.

### 1. Select Design

### 2. Select Size

See [page 3](#) for full size chart

### 3. Select Color

Element

Luxe Series

Wood Grains

Concrete & Stone Grains

# Crest Wall Tiles

Prior to installation, installers are advised to unpack and lay out panels to determine the most aesthetically pleasing arrangement.

## INSTALLATION INSTRUCTIONS

1. Locate the back-panel tile.

*(Tip: Layout your tile pattern/configuration on a flat surface prior to beginning install).*

2. On the back-panel tile, starting at the top corner, apply a bead of adhesive that is approximately 1/4" wide. Continue the bead of adhesive across the tile working in a zigzag pattern.

3. Your back-panel tile is now ready to be installed on the wall in the desired location.

*(Please note that the Wall Tile should be mounted on the wall within 60 seconds of applying adhesive).*

4. With the back-panel tile positioning on the wall, apply firm pressure evenly over the entire surface of the back-panel tile and hold it in place for a few seconds. The back-panel tile is now installed. Repeat steps 1-4 for all remaining tiles.

5. Locate the Baffle parts, they will be packaged in sets of 10 for each tile. Depending on your design layout, starting with the smallest baffle, insert the lug on the top and bottom of the baffle into the first slots in the back-panel tile.

6. Repeat this process with the remaining 9 baffle pieces, arranging them from smallest to largest as shown below.

# Crest Wall Tiles

Prior to installation, installers are advised to unpack and lay out panels to determine the most aesthetically pleasing arrangement.

## INSTALLATION INSTRUCTIONS (CONT.)

7. Now alternate the pattern for the next tile, arranging the pieces from the largest to the smallest. (Creating the mirror-effect of the previous tile).

*(Please note; this mirror-effect also applies to the vertical arrangement of the tile layers).*

8. Continue this pattern for the remainder of the tiles to complete the design.

# Color Options

## COLOR MATCH SERVICES

### Can't find the tone you're looking for?

Hush Acoustics' felt Color Match services enhance architectural projects with rich visuals and tactile appeal, whether for panels, murals, or other design applications. Our felt brings depth and sophistication to any space, offering a customizable and memorable design element that elevates the overall experience.

With advanced equipment, we produce high-resolution, color-accurate results that capture subtle gradients and find textures, all while maintaining acoustic performance. Every Color Match is carefully managed by our Senior Graphic Designer to ensure that the final output closely aligns with the designer's original vision.

### Commonly Matched Materials (matte finishes only):

#### Wall Paints

Dulux, Benjamin Moore, Behr, and other popular brands

#### Fabric

From linen to wool, we match not just the color, but also the texture in most of the cases

#### Wood Laminates

WilsonArt and other popular brands

#### Pantone® Hues

We simulate your company's brand tones using the Pantone® Uncoated palette

#### Stones

We can simulate a wide variety of stone types based on your needs

#### Generic Textures

Get in touch with our Acoustic Specialists, we will be glad to assist you
