GREENGUARD® GOLD CERTIFICATION

Hush Acoustics has achieved full GreenGuard® Gold sustainability certification, a mark of excellence that ensures our products meet strict standards for low chemical emissions, promoting healthier indoor air quality.

This recognition gives architects, designers, and consumers confidence in choosing Hush for environmentally responsible solutions. Beyond sustainability, Hush's felt products offer excellent sound-absorbing properties, making them ideal for creating quieter, more comfortable spaces.

SUSTAINABILITY

Manufactured from 100% PET(60% recycled material), our felt products demonstrate our commitment to both environmental stewardship and functional design, contributing to a greener and quieter future. It comprising of flame-retardant fiber as new material ensuring ASTM E84 class A certification. The high strength of PET panels in comparison to its weight is the key to its superior energy efficiency.

FUNGAL RESISTANT

Independently tested by EMSL Canada, Hush P.E.T. felt showed zero mold growth under ASTM C1338 laboratory conditions, confirming exceptional durability.

WARRANTY

Grid Ceiling Tiles
INSTALLATION INSTRUCTIONS · *PIXELGRID CEILING TILE*

1. Locate and arrange the upper and lower parts of the PixelDrop Ceiling Tile as shown below.

   (Note; the lower parts will have hardware attached).

3. Repeat this process for the remaining 3 upper sections to complete the Ceiling Tile.

2. Begin inserting the upper baffle parts into the lower baffle parts by sliding the cut out slots into each other. Push firmly to ensure a secure connection.

4. Align the tile with the underside of your T-grid system, then push the tile into the grid to engage the plastic clips. Your tile is now installed.

COLOR MATCH SERVICES

Can't find the tone you're looking for?

Hush Acoustics' felt Color Match services enhance architectural projects with rich visuals and tactile appeal, whether for panels, murals, or other design applications. Our felt brings depth and sophistication to any space, offering a customizable and memorable design element that elevates the overall experience.

With advanced equipment, we produce high-resolution, color-accurate results that capture subtle gradients and find textures, all while maintaining acoustic performance. Every Color Match is carefully managed by our Senior Graphic Designer to ensure that the final output closely aligns with the designer's original vision.

Commonly Matched Materials (matte finishes only):

Wall Paints
Dulux, Benjamin Moore, Behr, and other popular brands

Pantone® Hues
We simulate your company's brand tones using the Pantone® Uncoated palette

Fabric
From linen to wool, we match not just the color, but also the texture in most of the cases

Stones
We can simulate a wide variety of stone types based on your needs

Wood Laminates
WilsonArt and other popular brands

Generic Textures
Get in touch with our Acoustic Specialists, we will be glad to assist you
